

SERENA

VINO ROSSO DOLCE

Grape Variety: created with a meticulous blend of our aromatic Moscato, Brachetto, Freisa and Ancellotta grapes

Soil: Hill soil of sandstone origin with a significant presence of limestone mixed with tuff, with an altitude of 450/500 metres above sea level. Guyot training system, approximately 6000 vines per hectare with a grape yield of 75% in wine. The harvest is done by hand, after careful analysis of the ripening in the end of August, first week of September.

Alcohol: 5 % Vol.

Winemaking process

The grapes are harvested in small baskets, pressed and destemmed, followed by maceration with the skins for approximately 24-36 hours and then soft pressing. The must thus obtained is refrigerated, filtered and stored in cold storage at 0° C. When production starts, the must is transferred to pressurized steel tank where it is heated to 20°C and partially fermented with the addition of selected yeasts, thus transforming the sugars into alcohol. When it reaches 5 degrees of alcohol, the fermentation is stopped by refrigeration at -3° C, thus obtaining the perfect balance between acidity, sugars and alcohol. Sterile filtration and cold bottling follow.

Tasting note

Ruby red color. Serena's allure lies in its balance - a delightful interplay of rose aromas and rhubarb-strawberry pie notes that entice without overwhelming. Its raspberry and cherry flavors meld into a rich, complex finish, while the lightly "frizzante" nature adds a playful twist accompanied by a light tannicity that balances the sweet aroma and guarantees a pleasant persistence.

Food pairing

Ideal for those cautious of overly sweet wines, Serena is the perfect companion for a range of desserts. Imagine it alongside a fruit tart, enhancing the flavors without dominating. It's also a charming aperitif, ready to start your meal on a high note. Try it also with Prosciutto Crudo, spicy food, sushi. Ideal in the preparation of cocktails and refreshing, thirst-quenching drinks.

Temperatura di servizio

Servire a 6-8 ° C
